I had assigned it to my senior college students based on all of the strong reviews. To my and the students' dismay, there were gross errors throughout the book. Eli Whitney was not black. Willie Lynch letter was not real. Tanehisi Coats is a man who uses the male pronoun. Hampton University has never been the number one HBCU. It was unfortunate that a book with such an essential and necessary moniker is rife with such poor scholar I was surprised at how many inaccuracies there were in this book. There are some great people named in this book, but almost every reference is of a website. Few authorities are cited. Wikipedia is not trustworthy source material. This desperately needs an editor, someone to fact check, and someone to revamp the format so that each article doesn't read like an 8th grade history report. So many amazing people dealt with in such a shoddy way. Disappointing. This book is an example of poor scholarship, research and editing. Once I got into the book I noticed an unbelievable amount of typos. The book literally reads like a rough draft. The flow of information is bizarre. Angel Rich would go from talking about Nat Turner to talking about a modern day entrepreneur in a chapter that was set in the 1800s without any transition. I tried fact checking a story told about the Alexandria Retrocession of 1846 and the source I really was excited to read this book after reading the well written forward by Dr. Maya Rockeymoore.
